## Address - "Teacher & Student"

Paraphrase on Herodes as a model - see next H.

Literature & science I know no country there  
is a brotherhood & a citizenship of mind.  
American universities as well to cultivate  
the old Greek spirit which welcomed as  
teacher men from all parts of the world &  
in these matters displayed a liberality not  
since equals.

"no sovereignty but that of mind and no  
nobility but that of genius" (Newman)

Need of men & the personal influence of the teacher -  
not theories not calculation with the number of students  
not even a long long bank account - men of  
Honor - I have necessarily chosen - make the University  
durable & successful - it is one of the things that  
the student and child - the kernel, the vital  
something which is the animating principle  
the intellect of the man who leads world within  
the walls of the University - a person of great  
magnanimous intellectual stature which expresses in  
clear & beautiful language the problem of life.

Professor should set facing the last

Comparing is an advantage which will  
make us less content with common ideas which

"All can grow the flowers here, for all have  
got the seed"

And the common will pardon from one, who, like

And with this <sup>pleasant</sup> <sup>we may</sup> <sup>conclude</sup> is concluded

The forehead <sup>haste of youth</sup> <sup>unwisdom</sup> - <sup>peace</sup>

would change to adorn the right hand & <sup>the left</sup>
